# GREENBANKS

Daniel Broch, founder of Bliss, is the man behind this stunning 21st century property in Georgian Holt.

**Q. What is your background?**

A. I started life as a glazer, before moving into estate agency, property development and developing new property development brand, Bliss.

**Q. Who is behind the project in Holt?**

A. Bliss, which is me, my wife Lisa, PA Emma, plus a great team of local contractors and craftsmen.

**Q. What was the aim for the project?**

A. To provide a new standard of living in a fantastic location.

**Q. Why did you choose Holt?**

A. It's a great town on the desirable North Norfolk coast, and we love it!

**Q. Why is North Norfolk so wonderful?**

A. It's difficult to sum up, but the positive effect on our family living here is unquantifiable. We would never enjoy this 'energy' had we continued to live in London.

**Q. What is your design style?**

A. I'm driven by great space, ease of living, lightness of touch. As we say, spaces for life.

**Q. Who do you see living in the property?**

A. The emerging 'right-sizer' market. The kids have left home (or soon to) and they're looking for a living space that is easy yet contemporary, and can facilitate a 'lightness of living'.

**Q. What extra touches did you plan to achieve a union of fashion and functionality?**

A. Great ceiling heights, lots of light through an abundance of windows, comfortable 'hotel-like' bedroom suites, wet room showers, underfloor heating with remote operation

facility, full heat recovery system, and the UK's first 'petwalk' door!

**Q. What is your favourite feature?**

A. The general feeling of space conveniently arranged over a single floor with great ceiling heights.

**Q. What's next for your company?**

A. We're already building what we think will be one of the UK's most notable contemporary coastal houses in Blakeney with direct views out to sea.

**i**  
Greenbanks boasts approximately 2,200sq. ft. of great lateral living space. All the principal rooms enjoy direct access to gardens and the unusually generous ceiling heights promote an overwhelming sense of light and space. A quiet woodland setting within a short stroll of Holt town centre, it is fully detached with a dedicated driveway for a piece of 'Scandi meets North Norfolk'.
